Message from Julie Reid

I am committed to the Party remaining a Member lead democratic party with the Trade Union Link protected and retained. A Federal UK should be priority as the Tories are causing harm to the Union and we need an answer. England needs more Local power not 'dictatorship' from Whitehall. There also needs to be more power and autonomy for Regions and Nations in the Party.

Thank you

Julie

Don't be a sheep and follow the slate!

Ensure a balanced NEC vote Julie Reid 1

Why vote for Julie Reid?

The Labour Party needs to ensure that there are traditional centre left voices on the NEC. The splits of the last few years need to be put behind and we owe it to the communities we serve to deliver a Labour Government. Not one based on Focus Groups but firmly based on traditional values and delivering for the communities we serve.

Supporting the Leadership but not voting fodder!
