Vote Labour

Thursday 6 May

VOTE LABOUR TO END YEARS OF TORY NEGLECT

LET'S REBUILD OUR PUBLIC SERVICES AND INVEST IN A GREEN FUTURE.

Our public services are in crisis. The Tories cannot escape their responsibility for failures in education and social care. Labour will end Tory austerity and rebuild our public services.

Ian Ilett

I oppose the plans for Sizewell C. Our roads, services, health, and environment would all suffer. Skilled workers would be brought in from Hinkley. Local tourism would be hit badly. I want more sustainable green energy jobs for a better future. We will continue the campaign to make government and EDF listen to local concerns, whatever happens.

Ian Ilett

Labour Candidate for ALDEBURGH & LEISTON

EDUCATION & CHILDREN'S SERVICES

Labour will guarantee every pupil access to a laptop and the internet. Labour will end the chaos in school transport created by Tory cuts. We'll fix the failures in support for children with Special Educational Needs and Disability, and we'll increase support for early years education.

FIX EDUCATION

HEALTH, SOCIAL CARE, & COMMUNITIES

Labour will immediately carry out a review of the care sector in Suffolk to give the elderly and the vulnerable the support they deserve. We'll split up the failing Norfolk and Suffolk Foundation Trust to deliver better mental health provision. We'll restore Suffolk's health visiting service in full.

FUND SOCIAL CARE

ENVIRONMENT & PUBLIC PROTECTION

Labour will establish a co-operative green energy group to invest in renewable energy and green technology projects. Labour will install more than 300 rapid charging points and aid the rollout of electric buses across Suffolk. We'll invest in flood defences to protect communities and farming land.

A GREENER FUTURE

✓ REBUILD SUFFOLK'S ECONOMY

Labour will introduce a fund to help businesses recover from Covid, offer new schemes for apprentices and graduates, and expand support for retraining.

✓ PUT EDUCATION BACK ON TRACK

Suffolk schools are struggling. I'll work closely with parents and teachers. Labour guarantees that all pupils will get laptops and internet access.

✓ 100% SUPERFAST BROADBAND

Business, consumers, and schools all depend on good broadband. Labour will bring Suffolk into the 21st century and provide 100% coverage within a year.

✓ CARE FOR THE ELDERLY

Labour will immediately review the care sector. We will improve pay and conditions, properly fund all settings, and stop using inadequate care homes.

✓ KEEP COUNCIL TAX SPENDING LOCAL

Too many County Council contracts go to businesses outside Suffolk. I want more of your council tax spent locally to boost local jobs and the economy.
