## VOTE LABOUR TO END YEARS OF TORY NEGLECT

Let's rebuild public services and invest in a green future

Our public services are in crisis. The Tories cannot escape their responsibility for failures in education and social care. Labour will end Tory austerity and rebuild our public services.

I oppose the plans for Sizewell C. Our roads, services, health, and environment would all suffer. Skilled workers would be brought in from Hinkley. Local tourism would be hit badly. I want more sustainable green energy jobs for a better future. We will continue the campaign to make government and EDF listen to local concerns, whatever happens.

*Ian Ilett*

## CUT OUT THE WASTE AND DELIVER VALUE FOR MONEY

The Tories running Suffolk County Council have blown £ millions on failed and over-budget projects. They've hired expensive consultants and agency staff. Ian will work to stop the vanity projects and spend your money where you want it - on frontline services.

### A VOICE FOR YOUR COMMUNITY

While Aldeburgh and Leiston continues to suffer from Tory cuts to local services, Ian will fight your corner. Whether you're trying to organise adult social care, or trying to find support for your child's educational needs, Ian will make sure your voice is heard.

### I'M BACKING IAN ILETT

"Ian is the best person to represent the residents of Aldeburgh and Leiston. I know he'll work hard to fight for the funding that our local services desperately need."

**ELEANOR O'DWYER, TEACHER  
ALDRINGHAM-cum-THORPE**

**FIX EDUCATION**

**FUND SOCIAL CARE**

**A GREENER FUTURE**

### REBUILD SUFFOLK'S ECONOMY

Labour will introduce a fund to help businesses recover from Covid, offer new schemes for apprentices and graduates, and expand support for retraining.

### PUT EDUCATION BACK ON TRACK

Suffolk schools are struggling. I'll work closely with parents and teachers. Labour guarantees that all pupils will get laptops and internet access.

### 100% SUPERFAST BROADBAND

Business, consumers, and schools all depend on good broadband. Labour will bring Suffolk into the 21st century and provide 100% coverage within a year.

### CARE FOR THE ELDERLY

Labour will immediately review the care sector. We will improve pay and conditions, properly fund all settings, and stop using inadequate care homes.

### KEEP COUNCIL TAX SPENDING LOCAL

Too many County Council contracts go to businesses outside Suffolk. I want more of your council tax spent locally to boost local jobs and the economy.
